

Terms and Conditions Addendum Microcredential Licensing

1. Scope and subject of the contract

This Addendum for Microcredential Services (the 'Addendum') supplements the General Terms and Conditions ('GTC') between SkillDisplay and the Customer. It applies exclusively to the creation, issuance, and management of digital microcredentials. In the event of a conflict between this Addendum and the main GTC, the terms of this Addendum shall prevail solely regarding the Microcredential Services.

1.1 DEFINITIONS

- **"Microcredential"**: The digital badge, or token issued to an end-user upon successful demonstration of the Competency Standards.
- **"Publisher"**: An entity that acts as author for publicly ("published") Skills on the SkillDisplay platform.

2. Grant of rights

2.1 LICENSE GRANT

Customers with issuing permissions are entitled to create microcredentials with a title of their choice, featuring a selection of published Skills or private Skills created by the customer.

In this context, it is ensured that:

- the verifiers who assessed the evidence of competence required to obtain the credential are clearly identifiable and designated for each microcredential.
- the Customer is prominently featured on the microcredential by means of their name and/or logo.

The creation of new microcredentials featuring the terms "Certification", "Certified" and "Official", or derivatives of these terms, shall be optional and is strictly reserved to the publisher of the contained skills or third-party issuers explicitly authorized by the publisher. Such authorization may be revoked by the publisher at any time, effectively ending with the contractual issuing permission period.

2.2 LICENSING MODEL

Issuing permissions for microcredentials are granted for limited periods of time. Regional, per-user or other limitations may apply for issuers depending on acquired microcredential issuing packages or individual agreements.

2.3 SKILL VISIBILITY

Issued microcredentials containing private Skills will link to these Skills and therefore grant public access via QR-Codes and links to respective Skill definitions, and author and verifier disclosures.

3. Term and termination

3.1 EFFECT OF TERMINATION

Upon termination of this Agreement, SkillDisplay shall immediately cease the issuing of microcredentials covered by the agreement. However, the following shall remain unaffected:

Issued microcredentials: microcredentials already issued to end-users prior to termination shall remain valid and accessible.
