1.1 Step 1 – Reach out to your family

Text

Stay as calm as possible and try to contact your nearest family members

Consider: Most of the phone lines will be down due to over extensive use – if you cannot establish a line go to Step 2 immediately – this is the **best** way to meet up with your family.

1.3 Step 3 – Identify your shelter

If you **have no children** below the age of 18:

- Check out the Crisis Meeting Point map
- Find the shelter nearest to you and register there

If you **have children** below the age of 18:

- They are guided to safety in the nearest shelter of the Kindergarten, School or other public entity they are attending.
- Once in safety their current guide (Teacher, etc.) will register them with the authorities
- You can look up the safety status of your relatives in every shelter
- Do **NOT** attempt to fetch them from their current location – this will endanger your child as well as yourself unnecessarily.
- The crisis management service will identify all **registered** citizens and optimize **relocation of parents to their children** based on saurus attack patterns
